University Open Ended Items

Open 1 What helped you learn in this course?

doing the assignments and the readings

Peer reviews

the multiple assignments and engagement from the professor

The class discussions and the open environment that the professor made.

The previous year's examples and detailed assignment sheets were helpful in getting started and making sure everything to be included was clear.

I appreciated the communication that happened in class with peers and professor

Going to class to learn the topics and reading the book

Prof. Rea, she was absolutely the most helpful. One of the best instructors I've had. She made the course very engaging and interesting and always had a wonderful attitude.

Open 2 What changes would improve your learning?

Anything I did not learn was my fault. The instructor did a great job.

New objectives that help those with difficulty communicating become a better applicant for jobs.

I think i learned well in this class

More drafting workshops and a little less peer review"workshops so maybe half the class peer review and the other half revising your draft to include the peer review feedback

taking notes on the reading

Sometimes the open-ended aspects of some papers made me question my writing direction

Unrestricted Items

Comment #1 Explain how you have used the ideas or techniques presented in this class outside the course.

when drafting resumes and cover letters I make sure I change stuff to fit the specific audience

Used the variety of writing styles and ability to write to multiple audiences in writing research papers, job descriptions, even emails.

I have used technical writing throughout my other courses for various assignments that i have had to write this semester.

Everything learned is taken into consideration for other papers, projects, or lab reports.

Helped me write my senior thesis

I will definitely be using my edited resume now

Comment #2 If you consulted your instructor during office hours, how helpful did you find the conference?Why?

I did not

She was available at anytime and was very helpful for all my questions.

Good, It led me in the direction I was confused about going with my paper.

You are a very personable and understandable person that is able to help people, lead them in the right direction, and give them ideas

Very helpful. Always willing to give advice and review the work.

I found it very helpful because she told me whatever I was did was fine so long as it fit my purpose and intended audience. It was when technical writing clicked for me.

N/A but was always available and willing to help students wth whatever they needed

Comment #3 Compare the quality of instruction in this course with that in other required course.

in other courses you just had write about the prompt but this class was much more in depth

Good quality, teacher was really active and had the student's best interests at heart.

She was a high quality professor and easy to communicate with

I think this course is good

The instruction here is better than in ESL 15.

?

Comment #4 Please comment on any aspects of the course (e.g., rough draft sessions, revision sessions, audiovisual materials, and so on) that you found helpful or not helpful.

rough drafts were important

Liked the revising sessions, analyzing the previous student examples and determining what was done well and what could have been improved.

All were very helpful

Everything was very helpful.

the rough draft sessions were helpful because they let me see things that I missed when I was originally writing

the set up of the course is good with making a rough draft, having peer review, then having time to work on it, and turning it in this is helpful in creating the best document that you can

Comment #5 What specific suggestions can you make to improve the course or the instruction?

Not many. Good overall given the current circumstance

n/a

nope

Overall, good course but instead of doing entire peer review sessions consider doing half peer review and half drafting and revising so students can consult with the teacher on peer review feedback

I thought you did the best thing you could for the required content

Nothing to suggest. Very well organized course.
